What was your interest and motivation for pursuing your field of education?		
<i>I have always been passionate about technology and problem-solving, which motivated me to pursue Computer Science and Engineering at IIT Bhilai. The dynamic nature of this field, coupled with its vast potential for innovation, deeply inspired me. I was particularly drawn to areas like software development, system design, and AI because they offer opportunities to create impactful solutions. My academic journey has further fueled my curiosity, providing me with the skills and mindset to tackle real-world challenges.</i>		
What makes you choose HPCL for this job? ?		
<i>HPCL's reputation as a leader in the energy sector and its focus on innovation resonate with my career aspirations. The company's diverse operations and commitment to sustainability align with my desire to contribute to impactful projects. I am particularly motivated by HPCL's emphasis on leveraging technology to optimize processes, which provides an excellent platform for me to utilize my technical and problem-solving skills. Working with HPCL will enable me to grow professionally while contributing to the company's mission.</i>		
What are your short term and long term career objectives?		
<i>Short-term Objective: To secure a challenging role that allows me to apply my technical and analytical skills while gaining hands-on experience in solving complex problems. Long-term Objective: To evolve into a leadership role where I can drive innovative projects, mentor teams, and contribute to the organization's strategic goals. I also aspire to stay updated with industry advancements and use my expertise to create impactful solutions.</i>		
What are your strengths and weakness that you feel will influence work in the organization?		
<p>Strengths:</p> <p><i>Adaptability: I quickly learn and adapt to new technologies and work environments. Problem-Solving Skills: My ability to analyze problems and develop efficient solutions has consistently been a key strength. Collaboration: I work well in teams, fostering a positive and productive work environment.</i></p> <p>Weaknesses:</p> <p><i>I sometimes focus too much on details, which can slow down overall progress. However, I am working on prioritizing tasks effectively without compromising quality.</i></p>		
. If you have to describe yourself in 3 words, what would those words be?		
<i>Innovative, Collaborative, Determined</i>		
At the end of our lives, we may want certain aspects of our work, achievement, character, disposition etc. to stand out and be talked about in glowing terms. What would you want the salient features of your life to read like.		
<i>I want to be remembered as someone who consistently sought to create meaningful impact through innovation and dedication. Professionally, I aim to leave behind a legacy of transformative projects that have solved real-world problems. Personally, I strive to be known as a compassionate and dependable individual who inspired and supported those around me. My ultimate goal is to blend professional excellence with social responsibility, making a positive difference in both the workplace and society.</i>		
. What is your biggest achievement till date? Why do you consider it to be your biggest achievement?		
<i>My biggest achievement to date is securing second place in a Capture the Flag (CTF) competition hosted by IIT Bhilai. It demonstrated my ability to work under pressure, solve complex problems, and apply technical expertise in cybersecurity. This achievement is significant because it not only validated my skills but also boosted my confidence to take on challenging tasks. It was a turning point that inspired me to pursue excellence in my field.</i>		

What are your extra-curricular activities, hobbies and other pursuits apart from academics? Please mention any accolades if you have?

Apart from academics, I am actively involved in sketching and basketball. I represented my my team in institute basketball competitions and secured second place in a sport meet tournament. Additionally, I served as the Basketball Coordinator in 2022, where I led and trained new players, fostering team spirit and discipline. I also participated in a cybersecurity Capture the Flag (CTF) competition and secured second place, showcasing my problem-solving and technical skills under pressure. These activities have honed my teamwork, leadership, and creative thinking abilities.

Any other information, which you may like to furnish.

I have a strong passion for technology and have worked on innovative projects like developing a Complaint Management System (CCMS) for IIT Bhilai and Android applications for startups. These experiences reflect my ability to merge technical expertise with real-world problem-solving. Additionally, I take pride in my collaborative skills, having worked with diverse teams on academic and extracurricular projects. I am also motivated to continuously upskill and adapt to the latest advancements in technology, ensuring that I can contribute effectively to any organization I join.
